

GOD MADE THE ANIMALS

GOD MADE COWS

DB Nursery for August 15th & 16th

These past several weeks we have learned about the small animals we love like dogs and cats, then we moved into the funny fellows who hop, swing and jump - bunnies, monkeys and frogs. These past two weeks we learned about the flying bees and butterflies who travel from flowers and bushes spreading goodness and growth. We are now switching into slightly larger animals, and particularly those you would likely see on a farm. What do we think of when we think of a farm? I think of a lot of animal sounds, different smells, maybe even mommy animals protecting their babies. One of the main animals we often see on a farm has a very distinct sound. This animal says Moooooo, and is happy to give us milk to drink and for our cereal. Can you guess what this animal is? A cow! Cows give us food, they can help work a farm, and they are so nice when they amble over to see us hanging over the fence with blades of grass for them to eat. This picture shows us a mamma cow with her baby. The baby cow is called a calf, and they stay with their mommies just about a half a year

before they can be on their own. That's pretty quick compared to human babies. Daddy cows are called bulls or steers, and they are big and strong! The can work a field, pull a tractor, and help the farmer with other

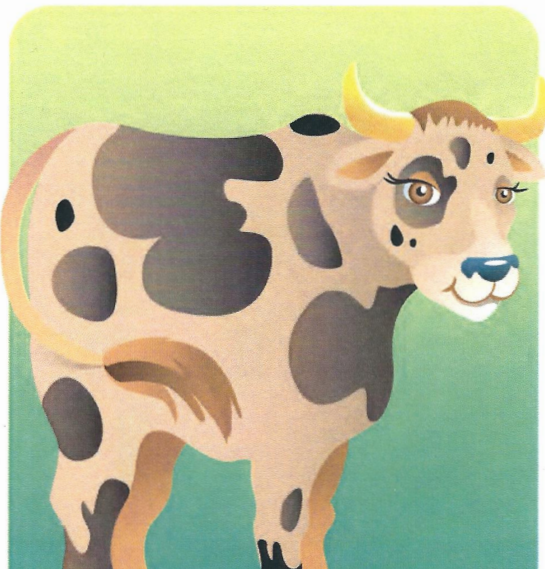

chores he might have. I hear that a temper, and I wouldn't want to pen with one that's angry, that's bull on the left looks pretty nice, want to get in the way of this you God for making cows and can have delicious food and help with our heavy loads.

bulls can have get stuck in a for sure. This but I wouldn't guy. Thank bulls so we drink, and

God Made Cows

Genesis 1:24

Parent Partners

This week we learned that God made cows. Point out cows to your child as you see them. Make "moo" sounds. Sing (to the tune of *The Farmer in the Dell*):

God made the cow. ("Moo!")

God made the cow. ("Moo!")

I'm so happy, very happy,

God made the cow. ("Moo!")

Spiritual Growth

Introduce your child to the idea of God as a Person:

- *0-12 Months*—Talk freely of God's care and Jesus' love.
- *12-24 Months*—Voice thankfulness to God during regular activities such as eating, changing, and naptime.
