

GOD MADE THE ANIMALS

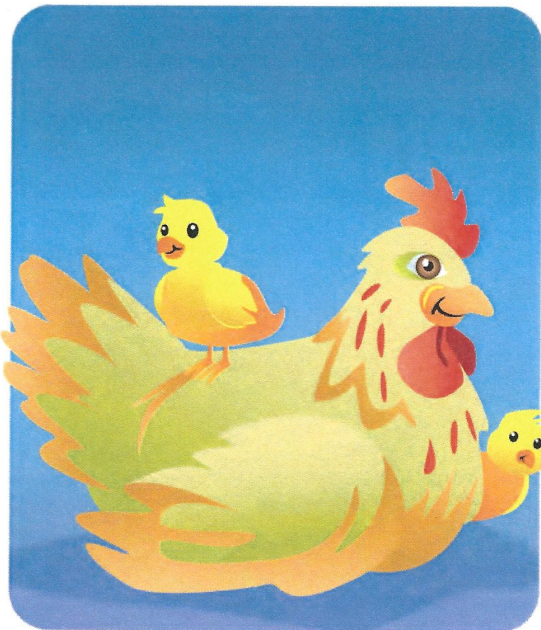

GOD MADE CHICKENS

DB Nursery for August 22nd & 23rd

Hi everyone. Do you remember last week we said we were going to be talking about God's creation of animals, and specifically those that live on the farm? We learned last week that God made cows, and this week we're going to learn about God's creation of a much smaller animal that runs around on two feet, has lots of feathers, flies just a little, and lays eggs. You guessed it! God made the chicken. Little baby chicks are just about the cutest little fuzzy creatures you've ever seen. The mamma chicken lays her eggs and then she keeps the baby inside the egg grows. When it's out of the egg, it starts to crack the shell with hard from the inside. You can hear the works away, and this process can take Sometimes as humans we want to help the further cracking the shell, but this is no designed this whole process in such a intended to strengthen the baby bird free. You could even argue it has to go through this struggle in order to survive. Perhaps we are a little like that. As we grow up and go through things that are hard, we need to not give up, but use the strength that God gives us together with His strength that He promises us in order to complete the task. God is always with us, and helping us get big and strong while we grow in Him and His promises for our lives.

God Made Chickens

Genesis 1:21

Parent Partners

This week we learned that God made chickens. Pretend to be a chicken by flapping your arms and clucking. Sing (to the tune of *The Farmer in the Dell*):

*God made the chicken.
God made the chicken.
I'm so happy, very happy,
God made the chicken.*

Spiritual Growth

Your child is wide open to God's love right now. Try these activities with your little one:

- *0-12 Months*—Sing *Jesus Loves Me* and other songs of God's love as you cradle and snuggle your child.
- *12-24 Months*—Sing *Jesus Loves Me* and other songs of God's love as you dress and hold your child.
