

GOD MADE NATURE

GOD MADE THE FLOWERS

DB Nursery for September 26th & 27th

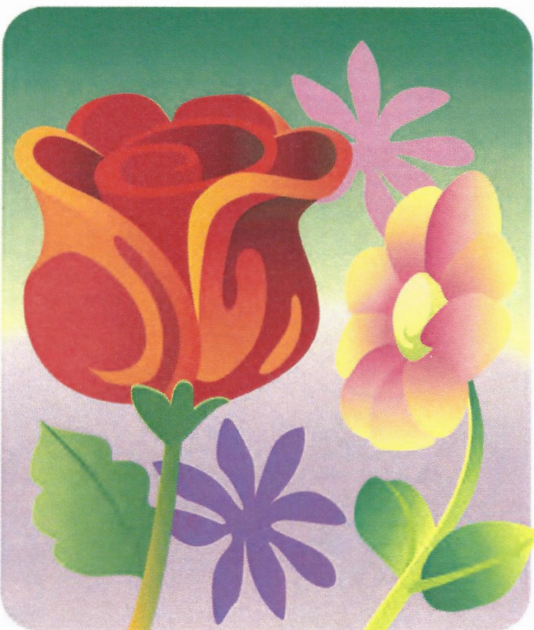

This week we are going to learn about some of the most beautiful things we see growing in nature. We see them all around us, in yards, in fields, along the roads and even in places we would think they couldn't grow. They come in all colors, shapes and sizes, and many of them smell delightful. We can pick them and bring them inside, or simply enjoy them as we walk by. They have leaves and petals, and the birds, bees, butterflies and ladybugs love to hang around them. What are these things? Yes!! Flowers.

Flowers have pollen that can be carried through the air or by insects to start the growth of more flowers. Isn't it neat how God made it so the animals and bugs He created can benefit from and also help the plants and flowers He created? It all works together. One flower is lovely all by itself, but when you put several flowers together, they make an even more lovely bouquet. A bouquet can be many of the same flowers but it can also be a mix of many different kinds. The flowers in a mixed bouquet have their part to play, while making the flowers around them even more beautiful. We can think of ourselves as one flower in God's bouquet, each with our own look, style and characteristics, but together with others we complete what God had in mind.

Thank you God for making beautiful flowers for us to see, touch and smell. May we always be thankful for the pretty things you put on earth for us to enjoy.

It's still pretty warm where we live, but maybe if you can go out early in the morning, you will be able to enjoy the trees and flowers we see all around us. I love you all. See you soon...Teacher Julie

God Made Flowers

Genesis 1:11

Parent Partners

This week we learned that God made flowers. Point out flowers to your child as you see them outside and in books. Sing (to the tune of *The Farmer in the Dell*):

*God made the flower.
God made the flower.
I'm so happy, very happy,
God made the flower.*

Spiritual Growth

Establish the importance of books and the written word for your child's future interaction with the Bible:

- *0-12 Months*—Read and show colorful picture books about God and creation.
- *12-24 Months*—Read simple books (including Bible storybooks) every day.
